ANAT2341 Wiki Reference Card

Mark Hill (2017)

Starting a new personal page
1. Log in and find your student number if your student number is:

      Blue - a page already exists.
      Red - no page yet exists.

2. Click on your student number and a new blank page will open.
3. Click the "create" tab at the top of screen and a blank window will appear with small icons at the top of the window.

| **B** *I* | 🔗 🖼 📄 | ▸ Advanced | ▸ Special characters | ▸ Help |

4. Type your text into the blank window and click "save page" at the bottom of the page.
5. The screen will refresh showing "Read Tab" at the top of screen and display the text on your page.

Headings
In page edit mode, use the (=) key either side of your text to set the level of headings.
==Section==
===Subsection===
===Sub-subsection===

Lists
In edit mode the following symbols (*, #, ;, :) at the beginning of a line will generate different types of lists.

* bullet point list.
** bullet point subheading list.
*** bullet point sub-subheading list.
# numbered list (sub-headings as before).
; definition list.
: colon will indent text.
:: two colons will indent text more.

Links
In page edit mode square brackets will generate different types of internal or external links. Note there are special links for references.

[[text]] internal link to a page called "text".
[[text|test]] internal link to a page called "text", but the link appears on the page as whatever text is after the vertical line.
[http://www.unsw.edu.au] External link to the UNSW webpage.
[http://www.unsw.edu.au UNSW] External link to the UNSW webpage the link appears on the page as whatever text appears after the space after the web address.

Uploading Images
The image must first be uploaded to the site.

1. Open the left hand menu item "Toolbox" and click "Upload file'' and a new window will open.
2. Click the button "Choose file'' and navigate to where the image is located on your computer and double click the file.
3. The window will now show the file name in the "Source filename" window.
4. You can then rename the uploaded file in the "Destination filename" window.
5. Add a description to the "Summary" window. Note the description must include:
- Image name as a section heading.
- Detailed description of the image.
- Subsection "Reference" showing the original image source and **all copyright information**.
- A template for any added student image. {{Template:Student Image}}

Images not including the above information will be deleted by the course coordinator and be considered in the assessment process.

Students cannot delete uploaded images. Contact the course coordinator with the file address.

Inserting Images
The image must first be uploaded to the site. In page edit mode add double square brackets around the file name.

[[File:image.jpg]] inserts the image there.
[[File:image.jpg|300px]] insert the image resized to 300 pixels wide.
[[File:image.jpg thumb|An image]] inserts the image reduced in size on the right of the page with a caption "An image".

Tables
In page edit mode use normal HTML codes or the following symbols at the beginning of a new line.

{| begin a table.
| begin a new column.
|- begin a new row.
|} end a table.

Referencing
In page edit mode where XXXX is the PubMed ID number use the following code.

<ref_name="PMIDXXXX"><pubmed>XXXX</pubmed></ref>
For references not listed on PubMed, any text can be inserted between <ref></ref> tags.

Where the reference list will appear make a new section and on a new line the following code.
